

Carbon Reduction Plan

Supplier name: Evident Europe GmbH

Publication date: 21.04.2026

Commitment to achieving net zero

Evident Europe GmbH is committed to achieving net zero emissions by 2050.

Baseline emissions footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions.

Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline year: 2023

Additional details relating to the baseline emissions calculations:

Baseline calculation was done in 2023 in partnership with ClimatePartner for Evident Europe including branch office in the UK. The calculation was based on the guidelines of the Greenhouse Gas Protocol Corporate Accounting and Reporting Standard (GHG Protocol).

Baseline year emissions:

Emissions: Total (tCO₂e)

Scope 1: 563

Scope 2: 82.8

Scope 3 (included sources): 1511.10

Total emissions: 2156.9

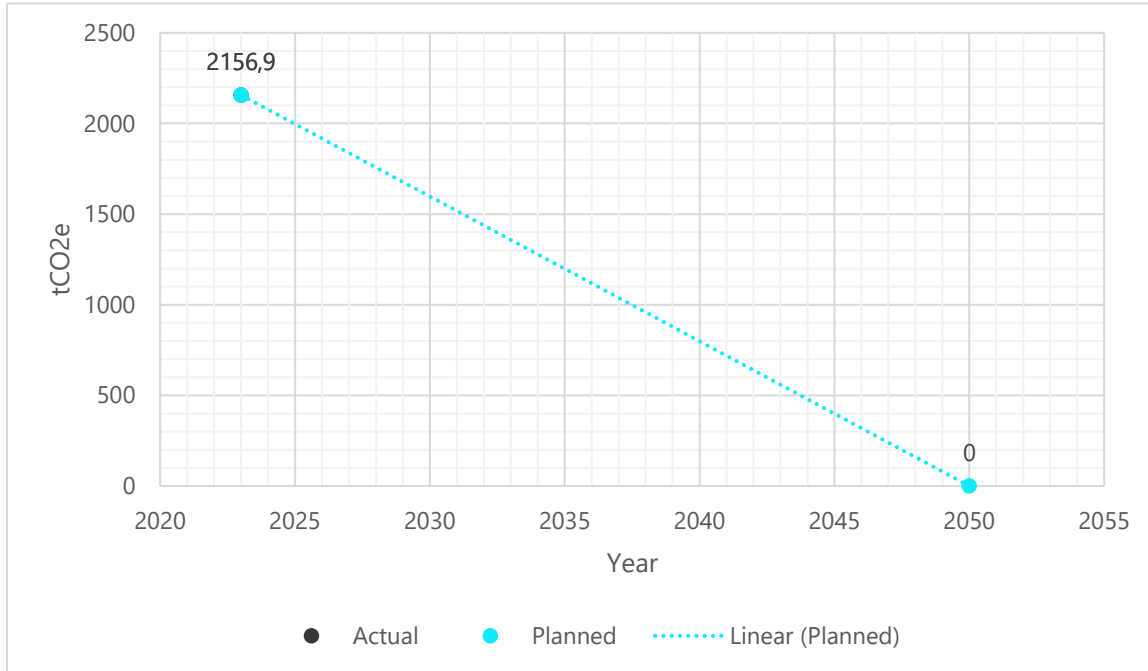

Current emissions reporting

Data collection for next calculation is being collected during the period. Due to operational reasons and internal changes, the carbon emission calculation for current emission reporting will be carried out in 2026.

Emissions reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 1617.7 tCO₂e by 2031. This is a reduction of 25%.

Carbon reduction projects

Completed carbon reduction initiatives

The following environmental management measures and projects have been implemented since the 2023 baseline.

- Road map to net zero
- Initiative to implement green electricity in offices
- Incorporate more electric or hybrid vehicles in fleet

Future carbon reduction initiatives

In the future we hope to implement further measures such as:

- Low-carbon consumption in daily operations
- Employee engagement and education
- Fleet efficiency and replacement
- Employee mobility and travel

Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate government emission conversion factors for greenhouse gas company reporting.²

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.³

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the supplier:

Martin Scheunemann

Vice President Global Customer Care & Service Delivery

DocuSigned by:

A handwritten signature in black ink that reads "Martin Scheunemann". The signature is enclosed in a blue DocuSign signature box.
